STAINLESS STEEL SITE FURNITURE

Built for Longevity. Timeless by Design.

Introducing a new standard in site furniture; pairing premium stainless steel architecture with durable HDPE planking. Defined by thoughtful proportions, clean lines, and a sophisticated material palette, UrbanCoast creates American-made site furnishings designed for the places people share.

At the core of UrbanCoast is an uncompromising commitment to longevity, durability, and low maintenance. Every piece is engineered for exceptional strength and lasting performance, making it ideal for demanding outdoor environments where conventional materials deteriorate over time.

From bustling urban spaces to salt-air coastal settings, UrbanCoast furnishings elevate their surroundings while maintaining their beauty and structural integrity. A range of configurations – including custom laser-etched options and colors – allows each piece to meet the unique aesthetic and functional requirements of any project.

STRENGTH LONGEVITY SUSTAINABILITY LOW MAINTENANCE DISTINCTION CUSTOMIZABLE

Manufactured with recycled stainless steel and HDPE planking

Made to withstand all enviroments and weather conditions

Long term savings due to longevity and low maintenance

EVERY SETTING. EVERY SEASON. STAINLESS STEEL

Three distinct levels. One enduring standard.
